

Ms. Hiring Manager
Director of Resident Life
Warren Wilson College
701 Warren Wilson Rd
Swannanoa, NC 28778

Dear Ms. Hiring Manager,

Since learning about the resident assistant position here at Warren Wilson during orientation, I have been excited about applying. Helping facilitate and build a constructive, safe, and fun living environment is something I feel passionate about. I believe my skills and experiences make me a good candidate for the position, especially in aspects of working with groups, organizing events, and creating a strong communal home for students. I'd love to get the position as a resident assistant at Warren Wilson College in order to foster growth in the students, and deeply engage with the Warren Wilson community.

I have found that I greatly enjoy the strong feeling of fellowship here at Warren Wilson, and have been amazed by the mutual support of all the students and staff. With my skills in community building and facilitation, I believe I could greatly benefit our growing school in continuing to foster that mutual support network. A good example speaking to this, would be in helping an anxious new student at the Endor Learning Center find her footing and get adjusted. Through engaging with the new student and learning her interests, then helping her build a workshop around them for her to host for the rest of the Endor participants, she quickly found herself well-adjusted and loving the program. I hope that I can utilize these strengths in being a strong part of your team of resident staff.

Included with this letter is a copy of my resume. I would love for the opportunity to interview with you so I may speak to my skills and experiences in full. I greatly appreciate you taking the time to review my application, and I will follow up in a week to see if we can find some time so that I may discuss my qualifications in more detail. You can contact me at (xxx) [xxx-xxxx](tel:xxx-xxxx), or at wwilson.f18@warren-wilson.edu.

With thanks,
Warren Wilson
