Study Away to Tanzania: Intercultural Comparisons of Agricultural and Social Welfare Systems in Tanzania and Appalachia

Winter 2018

Work Experience:

STARS: Sustainability Tracking, Assessment & Rating System at Warren Wilson College-
Student Researcher

Summer 2018- Present

- Sustainability data tracking and documenting on the campus of Warren Wilson College with a focus on data in the motor pool and facilities management (ie; fleet vehicles, gas usage, maintenance).
- Conducted research on long-term sustainability goals and the application of energy alternatives such as solar power on the Warren Wilson College campus.
- Reported back to the STARS organization, providing feedback/data on sustainability in all sectors of higher education.

Hobby Lobby: Customer Service Manager, Cashier

Summer 2015- Summer 2017

- Engaging with customers and staff with a thorough knowledge of company's policies, practices, and products.
- Leading and motivating team of staff to ensure that customers receive the best customer service possible.
- Maintaining departmental responsibilities (inventory, stocking, seasonal preparation) and administrative duties (phone calls, emails).

Community Service:

National Parks Conservation Association: Leadership Development Program

Fall 2017

- Collaborated with both National Park Service and National Parks Conservation Association Staff to develop leadership skills surrounding public land management, marginalized group accessibility to national parks, and best management practices.
- Gained insight on the importance of both regulatory/enforcement measures and advocacy and activism in relation to the protection and defense of public lands.

Certifications:

Agritechnology Specialist Certification

Achieved Summer 2016

Demonstrates knowledge on:

- Agricultural safety
- Environmental resource conservation and management
- Plant growth and reproduction; including fertilization, irrigation and pest control
- Agricultural machinery and facility maintenance and operations

Conferences/Summits:

Appalachian Public Interest Environmental Law Conference (APIEL)

October 2018

- APIEL is a conference aimed towards engaging lawyers, students, activists, and scientists together to discuss environmental and social justice issues that impact Appalachia.
- Attended several workshops and presentations on issues such as environmental justice, forest management, the Endangered Species Act, and the National Environmental Policy Act.

Radical Action for Mountains' and People's Survival (RAMPS)

Mountain Justice Fall Summit

October 2018

- RAMPS is a direct-action campaign based in Appalachia that organizes around issues such as clean air, water, repression by the coal industry, and anti-pipeline activism. The Mountain Justice Fall Summit was a specific event encouraging the mobilization of direct action against the pending Atlantic Coast and Mountain Valley natural gas pipelines.
- Demonstration of perseverance, organization, and resilience through direct action work, making connections, and building community in places that are disenfranchised by corporate and state violence, as well as extractive economies.
