

FOR AN EXCITING SUMMER, ENJOY KOREA NOW!

What are your plans for the summer vacation?

If you're looking for something memorable in your life, come and enjoy Korea!

You can earn three college credits for a thrilling three weeks!

Hannam University's Korean Studies Summer Program (KSSP) offers students an exciting opportunity to learn all about Korea through a variety of cultural experiences in the summer. This program aims to guide each participant in a total experience with the richness and dynamism of Korean culture in its historical and contemporary social contexts. A wide array of lectures, hands-on learning activities, and field trips help participants explore and experience Korea first hand.

DAEJEON: THE CENTER OF SOUTH KOREA

Geographically, the city of Daejeon is located right at the center of South Korea. As the country's fifth largest city with a population of 1.5 million, it has long been a major transportation hub where major expressways and railways intersect, linking the country from north to south. This terrific transportation network allows you to travel anywhere in the country you want to go with just a half day's travel from Daejeon.

Daejeon is also home to the world-famous Daedeok Valley, a science and technology research complex that is fast earning recognition as a hotbed of creativity and technological achievement. With over 232 research and educational centers located around it, Daejeon has been called the "Silicon Valley of South Korea."

Daejeon is also surrounded by mountains and other natural wonders that make it a truly beautiful city. In addition, it is closely connected to over 5,000 years of Korean history. Blending ancient history with innovative technology, Daejeon is one of the most fascinating cities in Korea.

PARTICIPANT REACTIONS

The KSSP did change my life dramatically. I made friends that I would never forget, and I even learned the Korean alphabet within three days! The KSSP program also inspired me to come back to Korea, where I am now. Not only did I learn about a country I had no knowledge about, but I also met people I would have never met in the USA. I also got to taste new and exciting foods, and I even got to see amazing sites in Korea. The experience was once in a lifetime, but I plan to do it again!!!

- Cati Branton, Western Carolina University, USA

The Hannam KSSP was not what I expected – it was far more than I expected. The people, the food, the culture and memories will remain with me forever!

Emma Anderson, Charles Sturt University, Australia

The DMZ was the trip I was looking forward to the most, and it didn't disappoint. The story and history behind it amaze me, and this will be my unforgettable memory in my life.

Brandon Lee Robbins, Jamestown College, USA

As an international mentor at my own university, this experience has taught me so much about dealing with many different people from different cultures and contexts, but especially with those from Korea. All of this shapes me into a better individual, friend, and global citizen.

Wang Yufang, University of Nottingham, Malaysia
